

KÜPER

World's First Ever

fully automated machine
to produce consistent,
crystal-clear ice spheres.

Stop purchasing your ice. Make it.

Every Pour Tells A Story

Make yours unforgettable

Kuper delivers perfectly clear,
ice spheres — every single time.

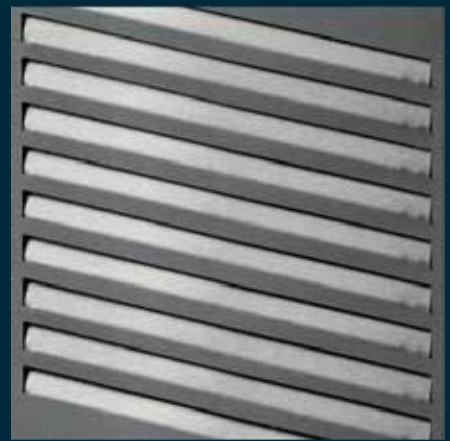

Where Craftsmanship Meets Frozen Perfection

Ice Formation Tech	No cracks. No clouding. Just consistent, flawless clarity.
Precision Defrost Cycle	Every sphere is uniform in shape and size.
Temp-Regulated Storage	Perfect spheres, ready to serve as you need them.
Compact Footprint	Fits cleanly under bar counters.
Controlled Dilution	High-density, longer lasting ice.

DYNAMIC STORAGE TRAY

The storage tray is engineered to keep ice gently moving and rotating, preserving its form and clarity for extended periods, while also advancing the ice forward, making it easily accessible for the user.

Technical Details

Specs*

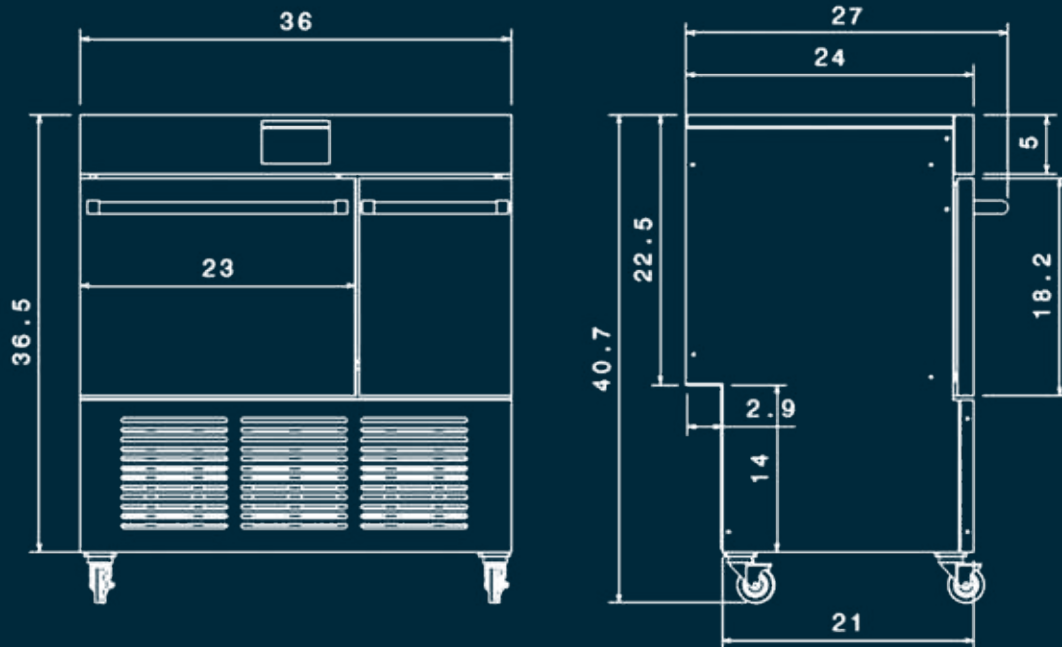

Ice Production — up to 104 spheres per day
Material — Durable Stainless Steel Exterior

Electrical*

Voltage — 115V/60Hz (Single-phase)
Dedicated Circuit — 20 amp minimum

Plumbing*

Water Supply — 3/4"
Drains — 1/2"
Water Usage — 57 liters / 15 gal per day

The Sphere

- Dimensions — 2.5in / 63mm
- Weight — 4.6oz / 130g
- Uniform ice for a consistent pour

*estimated values — final results subject to change

 420 S. Beverly Dr., Suite 260
Beverly Hills, CA 90212
